## THE SYLLABUS AND LANGUAGE OF THE NATURE

Mahatma Gandhi had rightly said "Earth provides enough to satisfy every man's needs but not for every man's greed". His words have turned prophetic today when we see the systematic decimation of the nature. The time is just ripe to take his advice seriously because of our ruthless greed has endangered our ancient heritage. Posterity will not forgive us, for petering out this bountiful, priceless treasure of the nature.

Climate change, flood, draught, cyclone etc. are also the chapters in the syllabus of nature. Always nature speaks in its own language and changes its course when it is being pained & damaged. The nature answers to mankind for his ill will at an appropriate time. The ultimate answer which it would give us is the devastation. We are unfortunately experiencing the same, right now. The reply of the nature is Unpardonable, I can't help & SORRY". Nature is a great experimenter.

The floods they have devastated vast regions of our country these years and were the reminder of the catastrophe which resulted the dimness in development. The calamities through which the nature speaks have miserably defeated the man, humiliated the man and lead him for ultimate sufferings.

The natural and man-made calamities have once again triggered a debate with the focus on the need to conserve the ecological fragile that sustain the balance of human life consisting millions of people. The scientists reckon that devastation caused by the floods and the drying up of streams and rivers are the result of the management of the fragile eco-system due to indiscriminate developmental activities coupled with exploitation of resources.

To exemplify: (a) Bengaluru City which is hailed as Garden City with abundant trees, lakes etc. Now called as Silicon City with plentiful developmental activities but with deforestation, urbanization. Illegal mining thus damaging the nature. It is easy to destroy the nature but hard to build. Development to envision the future is inevitable but not at the cost of damaging the nature.

(b) Western Ghats - 1600 km long covering six states and home to many species of plants, mammals, birds, reptile, amphibian etc. and acts as barrier to South west monsoon. We need to save Western Ghats as huge destruction is felt by severe drinking water scarcity in the recent days. The exploitation of the green treasure threatened the survival of human kind.

The solution to climate change is perhaps simple but hard to implement. Increasing the forest cover of earth in area and to decrease the carbon dioxide besides up gradation of unconventional and renewable source of energy which are in use for decades must receive priority attention to stop further damage to the environment. The goodwill and determination of mankind is the first answer. We must obey the great Law of change. It is the most powerful Law of Nature. The Mankind has to face the examination according to the syllabus and language of Nature. We need to realize that if our children, grandchildren & next generation should have a peaceful life, we need to protect the Nature.

### ಇಂದ್ರಾವಳಿ

ತನ್ನ ಪ್ರತಿ ಹೆಣ್ಣಿಗೆ ಕೆಳಕೊಳ್ಳುತ್ತಾ  
ನಿರಾತಂಕನಾಗುತ್ತಿದ್ದ ಬಲ ಜ್ಯಕ್ತವತ್ತಿ  
ಇದನ್ನು ಕಂಡ ವಾಮನ  
ಕೊನೆಯಿ ಸಲತನ್ನ ಕಾಲೀತ್ತಿದಾಗ  
ಆ ದಾಸಿ ಕೊಟ್ಟಿದ್ದೀ  
ತನ್ನ ತೆಲೆಯನ್ನು

ಆಗಲೆ ಆತನಿಗೆ ಕಂಡಿದ್ದು  
ಮನೆ ಮನಗಳ ಕತ್ತಲ ಗುಹೆಗಳಲ್ಲಿ  
ಭೂಕಂಪ, ಗುಡುಗು ಮಿಂಚು  
ಎಲ್ಲ ಒಟ್ಟಾಗಿ!

ಆಗ ದಿಂದ ಹೊತ್ತ ಆತ್  
ಮತ್ತೆ ಮತ್ತೆ ಬರುತ್ತಾನೆ  
ಮತ ಅಭಿಮತಗಳನ್ನು ಕತ್ತು  
ಸಾರುತ್ತಾನೆ ಮೆತ್ತಿಗೆ –  
ನಿದ್ರಿಸಿದ್ದ ಸಾಕು ಏಳು!  
ಇಂದು ದಿಂದಾವಳಿ  
ನೋಂದು ಬೆಳಕು ಸುತ್ತ ಎತ್ತಿತ್ತು!
